

itelligence AG presents preliminary figures for first nine months of 2009

- **Revenues up further year-on-year at MEUR 158.3 after first three quarters**
- **EBIT at MEUR 7.0 after first nine months of 2009, EBIT margin at 4.4%**
- **Guidance for fiscal year 2009 confirmed**

Bielefeld, October 22, 2009 – itelligence AG has increased its revenues in the first nine months of 2009 by 2.7% from MEUR 154.1 to MEUR 158.3 in spite of the continuing challenging market environment. While revenues had been down year-on-year in the second quarter, they stabilized in the third quarter at exactly the previous year's level of MEUR 52.3. As of the end of the third quarter, orders on hand amounted to MEUR 156.5 (previous year: MEUR 154.8).

EBIT amounted to MEUR 7.0 after the first nine months of 2009 (previous year: MEUR 9.7). This included bad debt allowances on receivables, losses on fixed price projects and reorganization measures of around MEUR 3.0. This resulted in an EBIT margin of 4.4% (previous year: 6.3%). In the third quarter of 2009, itelligence generated EBIT of MEUR 3.3 after MEUR 3.8 in the same quarter of the previous year. The EBIT margin was therefore 6.2% (previous quarter: 7.3%).

The Management Board of itelligence AG expects to achieve its forecasted revenues target of between MEUR 220 and MEUR 230 in 2009 as a whole (previous year: MEUR 216.6). The EBIT margin for the whole year is expected to be at the upper end of the 4.7% to 5.2% range (fiscal year 2008: 6.3%). Thus, itelligence expects to generate further growth despite the contraction in the IT services market.

Further figures and details can be found in the Quarterly Report 3/2009, which will be published on October 28, 2009 at www.itelligence.de.
