

itelligence AG underscores high standard of quality with SAP projects

SAP names itelligence as Special Expertise Partner SAP for Mill Products

Bielefeld (Germany), August 30, 2007 – SAP Deutschland AG & Co. KG has named itelligence AG, Bielefeld, as a Special Expertise Partner SAP for Mill Products in the Large Enterprises (LE) segment for major customers. In doing so, SAP is honoring the high level of product and process expertise in addition to the extensive project competence of its partner, itelligence, in the mill products area.

The honor of "Special Expertise Partner" is only awarded to SAP Service Partners which demonstrate special competence for particular SAP solutions or industries. With this honor, itelligence was able to underscore its high qualification in the mill products area, especially through the projects it carried out in 2006 and 2007, including Sedus Stoll AG, Hetal and HEWI Heinrich Wilke GmbH. All the customers are SMEs that appreciate the well-established SAP knowledge combined with industry-specific knowledge from itelligence.

According to Berthold Vossman, Market Team Leader, itelligence AG, "We are very pleased about the nomination as a Special Expertise Partner of SAP in the area of mill products. The continuous refinement of our industry knowledge combined with current SAP expertise is reflected in our industry solutions. Our customers appreciate this effort, which allowed us to continuously increase our revenues last year in the areas of metal, paper and wood (mill) products."

Combined marketing activities from SAP and itelligence are already planned. Industry Info Days and Partner Days for the mill product area are still to take place this year.

About itelligence

itelligence is one of the leading international full-service provider for SAP employing about 1,100 highly qualified employees in 15 countries and in 4 regions (America, Western Europe, Eastern Europe and Germany/Austria).
