- **“Dream Destination SAP” guidebook – travel with certainty in the SAP world with itelligence**
- **New industry solution it.wood timber**
- **All-inclusive packages – itelligence presents compact solutions at a set price**

Bielefeld (Germany) – February 26, 2008. Competitive advantages for SMEs and visible success for major customers are topics that itelligence AG will be presenting this year at the CeBIT in Hanover under the motto “Our SAP solutions take you to your objective”. The successful, full-service IT provider for SAP has expanded its presence at the trade fair this year. The itelligence experts will be at the main itelligence stand in Hall 4/D38, at the SAP stand in the special SAP Business ByDesign area (D12) and in Hall 6/C24 at a recruiting stand.

Exporting without customs problems – it.x-atlas makes it possible

itelligence AG will be showcasing its innovative it.x-atlas solution as a new software product at the trade fair. With this, the internationally active, full-service IT provider for SAP will introduce its SAP-integrated, electronic customs link for the first time to the general public. With this new solution, itelligence offers customs linkage with complete integration under SAP – without the additional external systems that are otherwise necessary. it.x-atlas fulfills all of the requirements specified by the customs authorities.

SAP Business ByDesign – leading edge technology interpreted for SMEs

As one of the very few SAP partners worldwide, itelligence will be presenting the new SAP solution SAP Business ByDesign in Hall 4/D12 at the SAP stand. The on-demand solution SAP Business ByDesign has been conceived for small to mid-sized enterprises with 100 to 500 employees that, up until now, have not made use of integrated business software. itelligence plays a key role in the market launch of SAP Business ByDesign in the SME sector in Europe and in the USA.

Press Release - itelligence
SAP consulting company itelligence at the CeBIT 2008 in Hanover
itelligence CeBIT trade fair highlights

“Dream Destination SAP” guidebook – travel with certainty in the SAP world with itelligence

If SAP was a world unto itself, then the “Dream Destination SAP” guidebook would be the starting point for planning a successful journey of discovery. itelligence presents the 85 page book as a small introduction to the “SAP world”, including a route planner, insider tips, the ‘lay of the land’, practical notes, comprehensibly described solutions and menu tips. The new, comprehensive and sometimes tongue-in-cheek engagement with the “World of SAP” and its access routes is extensively presented. A phrase book titled “Do You Speak SAP?”, with a detailed glossary intended to translate the language of “SAP natives”, rounds out this free offering – which is one of a kind. More information on this can be found at the website: www.da-will-ich-auch-hin.de.

SME success with the classic SAP Business All-in-One solutions

CeBIT visitors can inform themselves about itelligence’s comprehensive industry-specific program at their main stand in Hall 4/D38. The itelligence consultants will be presenting innovations for it.automotive for the automotive supplier sector, it.chemicals for the chemical and pharmaceuticals sector, it.hightronic for the high-tech and electronics sector, it.manufacturing for machinery and plant manufacturing, it.metal for the metal & synthetics processing industry and it.trade for commerce. An entirely new industry solution will be shown by itelligence for the wood products industry under the name it.wood timber, which encompasses all necessary processes of the wood products industry – all the way to sawmill know-how.

Business SAP All-in-One for industry segments

Complete in scope, compact in price, uncompromising in performance at the highest level of quality; itelligence is presenting the SAP compact line for SMEs based on SAP Business All-in-One for subsegments. Trade visitors can view examples: it.compact manufacturing, based on SAP Business All-in-One, for component manufacturers; it.compact automotive and it.compact hightronics, also based on SAP Business All-in-One.

itelligence presents new solutions packages on CD-ROM at a set price

At the CeBIT, itelligence will be offering the current online catalog of its successful it.compact line on CD-ROM for the first time. In addition to the proven solutions, new packages – such as *Fertigungsexpress* (manufacturing express), SOA scoping and KPI analyses – are also now available. They supplement the existing line, which includes the cost analysis function of

SAP basic operation or the activity-independent assignment and monitoring of budgets, for example. More info on this can be found at: www.it-compact.com.

Innovative solutions for company processes

For optimized sales and purchasing organizations, the full-service IT provider for SAP presents extensive examples from the areas: SAP Customer Relationship Management and SAP Supplier Relationship Management.

itelligence's technological leadership and successful, comprehensive IT offerings

At the CeBIT itelligence will also be presenting examples and advanced versions of Duet as a link between the Microsoft and SAP worlds, SAP/Notes integration and new developments with regard to digital signatures.

Trade visitors will experience how to configure SAP system landscapes to be "ready for eSOA" and find solid itelligence information and examples on SAP NetWeaver XI/PI, SAP Solution Manager, on data and document archival, on Unicode migration and IBMDB2 @ SAP.

The successful full-service IT provider for SAP in the area of SAP outsourcing for SMEs and major customers will also be presenting its comprehensive offerings and services at its main stand in Hall 4/D38. itelligence has more than five data centers in Europe and the USA and has for years now shown strong demand for its SAP hosting offering. The hosting experts will be exhibiting SAP Hosting Services, SAP Application Management and their Disaster Recovery Services under the slogan "24x7 Support Advantage Worldwide".
