

CeBIT 2010 – itelligence innovations in Hall 4, stand E04, Hall 5 and on the SAP World Tour in Hall 19

SAP consulting company itelligence: dialog-oriented – close to our customers

Bielefeld/Hanover, March 2, 2010 – with an extensive program and completely new stand design, itelligence AG is this year presenting innovative solutions for the midsize market and specialist solutions for large customers at CeBIT 2010.

At the redesigned main stand in Hall 4, stand E04, the successful SAP consulting company is showing off its industry solutions for this year. The details: all industry solutions can be seen in the new SAP NetWeaver Business Client version. SAP NetWeaver Business Client (NWBC) is a new, desktop-based integration platform from SAP, which presents end users with a seamless juxtaposition of Portal and classic SAP interfaces and completely new applications. It is also possible to integrate already existing browser-based SAP applications.

itelligence's consultants demonstrate the latest developments from it.automotive for the auto industry, it.chemicals for the chemicals and pharmaceuticals industry, it.consumer for the consumer goods industry, it.hightronic for the high-tech and electronics industry, it.manufacturing for mechanical and plant engineering, it.service for service providers, it.metal for the metal and plastics processing industry, it.trade for trade and it.wood for the wood and furniture industry.

Not only in Hall 4, but also intensively at the itelligence stand in Hall 19, 2.28 on the SAP World Tour 2010, visitors can learn first hand about important specialist subjects such as application management, business intelligence/business objects (BI/BO) and customer relations management (CRM), product lifecycle management, global trade services (GTS), supplier relationship management (SRM), strategic enterprise management software (SEM), the latest portal technologies and SAP NetWeaver Process Integration. Visitors can expect trade fair firsts on the subject of human capital management (HCM). HCM enables documents to be integrated and easily created, processed and saved again without any detours. One specialist subject to which itelligence has devoted a lot of attention this year is the presentation of its process consulting for SMEs and corporations.

SAP applications on Apple's iPhone

A trade fair highlight will come in the form of itelligence presenting the direct integration of SAP applications on the Apple iPhone. The innovation: unlimited mobile access to SAP data from SAP Business All in One on the iPhone via the new adapter from itelligence.

Hosting – global security

itelligence AG has consistently expanded its hosting service. As a full IT service provider, itelligence is complementing its SAP Remote Administration with SAP Implementation Hosting, as well as numerous services for SAP Application Management.

Focus on midsize market packages – SAP Business ByDesign

The fixed-price packages from the it.compact series for SMEs are presented in detail in Hall 4 at the main itelligence stand. In Hall 5 stand A04/P4, the latest Business ByDesign developments will be enjoying all the attention. itelligence AG is one of the first SAP partners to have already successfully implemented SAP Business ByDesign for customers.

Integration and support – itelligence AG's own product developments

itelligence is presenting innovations in integration products in particular. With it.x-press, itelligence has developed a new integration solution on the basis of SAP NetWeaver Process Integration (SAP NW PI) which allows a direct electronic connection of express and package service providers, as well as forwarding. The proven solutions it.x-change, it.x-atlas, it.sign, it.verify, it.smart-connect, it.audit will also be on display.

itelligence presents Alloy innovation

On the subject of Alloy, the newly developed software from SAP and IBM, with which SAP data can be accessed directly from Lotus Notes, itelligence is presenting the SAP Cross Application Time Sheet (CATS) in application as a trade fair innovation. The advantage of this solution: time recording and approval can be performed offline. Data-matching is done automatically in the background the next time the network is accessed. The reports can come directly from a Lotus Notes application.

Emergency and Disaster Management Solution it.edm

itelligence is presenting the completely new emergency and disaster management solution it.edm at this year's CeBIT. it.edm is based on SAP ICM (Investigative Case Management) and SAP CRM (Customer Relationship Management) and offers the kind of fast and easy-to-use platform that is necessary for organizing large events. it.edm was developed in cooperation with SAP and uses the results of the collaborative research project via service-oriented architectures for the support of networks as part of public safety (known as SoKNOS from the German **S**ervice-**o**rientierte **A**rchite**K**turen zur **U**nterstützung von **N**etzwerken im **R**ahmen **O**effentlicher **S**icherheit).

Online trade fair stand

itelligence, the successful SAP consulting company, is this year presenting itself not only with a real trade fair stand at CeBIT, but is complementing its information service with a virtual trade fair stand on the internet at www.itelligence.de/cebit. Trade fair visitors will find a realistic 3D environment, up-to-date trade fair TV with interviews and reports, information on products and services and the latest press releases from the complete IT service provider. Naturally, the online trade fair stand also offers the latest web 2.0 trends and technologies such as blogs and Twitter.
