

Strong partners for the mid-market: itelligence and SAP

SAP once again includes itelligence in the Special Expertise Program for SAP for Machinery, High Tech & Electronics

Bielefeld, October 22, 2010 – itelligence AG, one of the leading international full-service IT providers for SAP, has once again been included by SAP Deutschland AG & Co. KG in the Special Expertise Program for SAP for Machinery, High Tech & Electronics. With the inclusion, SAP is honoring itelligence AG for its extensive knowledge in the manufacturing and high-tech industries.

Berthold Voßmann, head of the Discrete Manufacturing and High Tech division at itelligence: “The manufacturing and high-tech industries are a focus area at itelligence AG and I’m extremely pleased about the renewed inclusion in the Special Expertise Program run by SAP. The inclusion is a certified seal of approval from SAP regarding the quality of our work and our customer projects. It also allows us to offer external proof of our goal of implementing the highest level of quality in the projects.”

Demonstrated excellence in technology and consulting when implementing customer projects is a prerequisite for membership in the Special Expertise Program. itelligence has distinguished itself for years with its in-depth expertise in the manufacturing and high-tech industries and boasts a long list of successful projects with customers such as Marantec, Kienle und Spiess (K&S), Aixtron, Rösler, Süss Microtec, Winterhalter and Bürener Maschinenfabrik (BMF).

The field-tested SAP®-Business All-in-One industry solutions from itelligence AG are it.manufacturing and it.hightronics. The it.manufacturing solution offers the manufacturing industry a complete, fully integrated SAP ERP solution that covers the entire value chain from customer inquiry, to development, planning, purchasing, manufacturing and delivery.

itelligence press release

Strong partners for the mid-market: itelligence and SAP

SAP once again includes itelligence in the Special Expertise Program for SAP for Machinery, High Tech & Electronics

it.hightronics also provides the high-tech and electronics industries with a complete, fully integrated SAP ERP solution for planning, controlling and monitoring their business processes. it.hightronics is designed specifically for the high-tech and electronics industries and supports the entire value chain from the initial product idea to development, planning, purchasing, manufacturing and customer service.

itelligence has enhanced the it.manufacturing and it.hightronics solutions with functions from Product Lifecycle Management (PLM), Customer Relationship Management (CRM), Supply Chain Management (SCM), CAD systems and Plant Data Collection (PDC) applications. That means the considerable effort typically required to coordinate the integration is significantly reduced in this case. In addition, mobile and eBusiness scenarios, as well as data from external development partners, can be integrated in the ERP system.

itelligence is one of the leading international full-service providers of solutions in support of SAP solutions, employing about 1,800 highly qualified employees in 19 countries and in five regions (America, Asia, Western Europe, Eastern Europe and Germany/Austria). As a frequently awarded SAP partner, among others global value-added reseller, itelligence realizes complex projects in the SAP solution-based environment® for over 3,000 customers worldwide. In 2006, itelligence obtained gold-level status as an SAP channel partner as part of the SAP PartnerEdge™ program in Germany, and in the U.S. in 2007. The company's services in support of SAP solutions range from consulting and licensing to outsourcing and services to proprietary industry-specific SAP. In 2009, itelligence generated total sales of EUR 220 million. In July 2010, itelligence was awarded the "TOP CONSULTANT" quality seal.
