

Double Success for SAP Consultants itelligence

itelligence AG Announces Two Customers as Winners of the Renowned SAP Quality Awards 2010

Bielefeld, June 10, 2010 – Two customers of itelligence AG, Vetter Pharma-Fertigung GmbH & Co KG, Ravensburg, and Seidel GmbH + Co. KG, Marburg, have won the renowned SAP Quality Awards 2010 for their SAP projects. SAP presents the SAP Quality Award to customers whose SAP implementation projects show outstanding quality in terms of project management and project execution. Strict selection criteria are applied here.

Two customers in the finals of the SAP Quality Awards with gold and silver is a great success for SAP consultancy firm itelligence, which has been focusing on SAP consulting for SMEs for several years now. itelligence itself has already received many prizes from SAP in recognition of the company's outstanding quality and customer proximity, a recent example being the SAP Pinnacle Award in the "SME Global Volume Partner of the Year" category.

itelligence's SAP project at Vetter actually received two prizes. The injection system aseptic filling specialist was awarded gold by SAP in Germany, thus qualifying for the international competition in Europe, the Middle East and Africa (EMEA). Vetter performed well here against strong competition and took second place in the SAP EMEA Quality Award 2010. Today, Vetter has an extensive all-new SAP system that is successfully used in all corporate divisions for management, planning and implementation. The pharmaceutical supplier also works for 19 of the world's top 20 pharmaceutical and biotech companies and has increased its revenues by around EUR 100 million to over EUR 280 million in the last five years. In the same period, the number of employees has grown from around 1,500 to 2,300, of whom 1,300 work with the SAP application.

The second award-winning itelligence customer, Seidel GmbH + Co. KG, Marburg, took silver for the Germany area in the "SME Implementation" category. In conjunction with itelligence, the midmarket mass producer has successfully introduced it.manufacturing, the itelligence AG industry solution based on SAP ERP.

Double Success for SAP Consultants itelligence
itelligence AG Announces Two Winners of the Renowned SAP Quality Awards 2010**

Seidel's core expertise is in forming aluminum by means of molding, drawing and stamping techniques and in surface finishing in the eloxal process. Approximately 320 users currently work with it.manufacturing at Seidel. As well as using the entire range of SAP solutions as corporate software, they also use product lifecycle management and SAP NetWeaver Business Warehouse (SAP NetWeaver BW). In this way, IT equipment and modern management methods such as lean management are complemented in order to meet the high standards of Seidel GmbH for process-supporting tools, in both production and organization.

Dr. Birgit Wittenbreder, head of itelligence AG's Germany and Austria business unit, says: "I am very proud that we can count two customers among the winners of the SAP Quality Awards, as this underlines once again what high quality standards we achieve in a wide variety of projects. In addition, the SAP Quality Awards are an important sign to me that our efforts to attain real sustainability and long-term partnership with our customers in our projects are being recognized."

itelligence is one of the leading international full-service providers of solutions in support of SAP solutions, employing more than 1,600 highly qualified employees in 19 countries and in five regions (America, Asia, Western Europe, Eastern Europe and Germany/Austria). As a frequently awarded SAP partner itelligence realizes complex projects in the SAP solution-based environment for over 3,000 customers worldwide. In 2006, itelligence obtained gold-level status as an SAP channel partner as part of the SAP PartnerEdge™ program in Germany, and in the U.S. in 2007. The company's services in support of SAP solutions range from consulting and licensing to outsourcing and services to proprietary industry-specific SAP. In 2009, itelligence generated total sales of EUR 220 million.
