

### **itelligence Boasts Substantial Cloud Expertise**

## **itelligence an SAP-Certified Provider of Cloud Services for the First Time**

Bielefeld, October 11, 2011 – itelligence AG announced today that it has passed the audit by SAP AG to become “SAP-Certified in Cloud Services” for the first time. This latest global certification from SAP shows that the cloud services of complete IT service provider itelligence AG provide an ideal basis for using state-of-the-art SAP® solutions.

Oliver Schreiber, Director of the Outsourcing & Services business unit at itelligence AG, comments: “Certification of our cloud services by SAP is yet another example of how quickly itelligence implements state-of-the-art technologies worldwide to the benefit of our customers.”

Depending on customer requirements at regional and global level, the corresponding hosting and application management services fulfill all requirements relating to security on the latest SAP solutions. In particular, itelligence’s cloud services support efficient use of resources and flexible provision of services. They thus demonstrate how current SAP technologies can be used innovatively in practical application.

### **Re-certification of itelligence AG**

Complete IT service provider itelligence can also announce that it has been successfully re-certified as “SAP-Certified in Hosting Services”, thus complementing its status as an SAP global hosting partner. As an SAP global hosting partner, itelligence meets all standards and service requirements for international and regional SAP hosting and data center operation. In addition, itelligence has again been certified as a SAP-certified provider of application management services (SAP-Certified in Application Management Services). Together with the global value added reseller and cloud certification itelligence is the only SAP partner worldwide to hold this extensive certification.

**itelligence Press Release**  
**itelligence Boasts Substantial Cloud Expertise**  
**itelligence an SAP-Certified Provider of Cloud Services for the First Time**

In order to obtain certification from SAP, SAP partners must prove their expertise and process quality in rigorous audits. In the global audits, this includes verification of a consistently high level of service provision maintained worldwide and a homogeneous configuration of the service processes in all relevant regions. itelligence has been a global hosting partner of SAP ever since 2004, and its application management services have been certified by SAP since 2010.

**itelligence is one of the leading international full-service providers of solutions in support of SAP solutions, employing more than 2,100 highly qualified employees in 20 countries and in five regions (America, Asia, Western Europe, Eastern Europe and Germany/Austria). As a frequently awarded SAP partner, among others global value-added reseller, SAP Certified in Cloud Services and SAP Gold Partner Business ByDesign, itelligence realizes complex projects in the SAP solution-based environment for over 4,000 customers worldwide. In 2006, itelligence obtained gold-level status as an SAP channel partner as part of the SAP PartnerEdge™ program in Germany, and in the U.S. in 2007. The company's services in support of SAP solutions range from consulting and licensing to outsourcing and services to proprietary industry-specific SAP. In 2010, itelligence generated total sales of EUR 272.2 million. In July 2010, itelligence was awarded the "TOP CONSULTANT" quality seal.**
