

**Five at once – because quality pays off**

### **Five industry solutions from itelligence qualified by SAP**

Vienna, Bielefeld – January 17, 2011 – itelligence has announced the qualification of five SAP Business All-in-One industry solutions by SAP in Austria. The solutions are qualified SAP Business All-in-One partner solutions that enable customers to combine business process knowledge from the tried-and-tested SAP applications with itelligence's industry functions.

SAP Business All-in-One partner solutions are qualified by SAP – development, sales and support are dealt with by SAP's channel partners. The partners implement the solution, provide advice on it and adapt it flexibly to the needs of the customer in question. Qualified SAP Business All-in-One partner solutions are preconfigured, industry-specific versions of SAP ERP that are combined with SAP Best Practices to ensure simplified operating procedures, cost savings and opportunities for growth.

itelligence, the internationally successful full-service IT provider for SAP, obtained qualification for its SAP Business All-in-One solutions in Austria in five industries. The solutions qualified by SAP now include itelligence's solutions for the consumer goods industry, it.consumer, and for the pharmaceutical industry, it.pharma, its trade solution, it.trade, it.hightronics – the solution for the high-tech industry – and the solution for the furniture industry, it.wood. This makes itelligence one of the SAP partners with the highest number of qualified SAP Business All-in-One partner solutions in Austria.

itelligence is one of the few midmarket partners of SAP that offers its solutions internationally. For itelligence customers with subsidiaries abroad, this means that they also receive the proven, ongoing high quality of an industry solution in various markets.

Robert Leitner, Managing Director at itelligence Business Solutions GmbH, comments: "The qualification has many advantages for our customers. A proven implementation method including detailed solution documentation, training material and templates contributes to an extremely efficient project procedure. That significantly reduces the project times. At the same time, we offer our midmarket customers the most up-to-date SAP experience – translated to the midmarket."

**itelligence is one of the leading international full-service providers of solutions in support of SAP solutions, employing more than 2,200 highly qualified employees in 20 countries and in five regions (America, Asia, Western Europe, Eastern Europe and Germany/Austria/Switzerland). As a frequently awarded SAP partner, among others global value-added reseller, SAP Certified in Cloud Services and SAP Gold Partner Business ByDesign, itelligence realizes complex projects in the SAP solution-based environment for over 4,000 customers worldwide. In 2006, itelligence obtained gold-level status as an SAP channel partner as part of the SAP PartnerEdge™ program in Germany, and in the U.S. in 2007. The company's services in support of SAP solutions range from consulting and licensing to outsourcing and services to proprietary industry-specific SAP. In 2010, itelligence generated total sales of EUR 272.2 million. In July 2010, itelligence was awarded the "TOP CONSULTANT" quality seal.**
