**ITELLIGENCE SUPPORT ADVANTAGE™ SIGNS FOUR
MID-MARKET CLIENTS**

*CentiMark Corporation, Hu-Friedy International, jWIN Electronics Corporation, and
Sharp Electronics Corporation Agree to Managed Hosting Contracts*

Cincinnati, Ohio, October 7, 2005 — itelligence Support Advantage, the company's customer service and support group, today announced it has signed four mid-market clients – CentiMark Corporation, Hu-Friedy International, jWIN Electronics Corporation, and Sharp Electronics Corporation – to Managed Hosting Services contracts.

jWIN, a leading consumer electronics company, partnered with itelligence for purchasing and implementing SAP and selected its Managed Hosting Services for post Go-Live support. Although an important factor, it wasn't just the convenience of having itelligence as both software and implementation partner that led Ryan Um, jWIN's data processing manager, to select itelligence as its Managed Hosting provider.

"I had a chance to converse with itelligence Managed Hosting personnel as well as tour the data center," said Um. "Their knowledge of SAP, especially Basis, was impressive, and made selecting itelligence as our hosting partner an easy decision."

jWIN also chose other Support Advantage services, including itelligence Quickstart to rapidly and cost-effectively jump start the implementation process, and SAP Training.

CentiMark, a top commercial and industrial roofing contractor in North America, opted for itelligence's Managed Hosting Services to supplement its IT department's SAP expertise and enable it to focus on other company initiatives.

"We chose itelligence's Managed Hosting Services because of their staff's deep SAP and business experience," said Greg Wilson, CentiMark's CIO. "Their expertise helping midsized companies and strong ties to SAP is unmatched in the industry."

itelligence, a SAP Global Hosting Partner, is only one of a handful of companies worldwide to earn this recognition. This status is conferred on companies whose operations meet the highest standards of customer support and operating procedure.

“Partnering with these companies is just the latest example that our full-service approach in the mid-market is on target,” said Steve Niesman, itelligence’s president and CEO. “It demonstrates that these companies want and demand a group dedicated to their specific needs and prefer a single source for hosting services and functional support.”

About itelligence

itelligence is a leading global, mid-market full-service SAP provider. We offer a full-scope of SAP services, including SAP consultancy, system integration, licensing, managed hosting, application support and education. itelligence is a wholly owned subsidiary of itelligence AG, a global consulting organization with 1,000 dedicated employees in 15 countries. One of only 12 consulting firms to earn SAP Global Partner status, itelligence has been SAP’s worldwide partner since 1993.
