

itelligence signs up new customer in the plant engineering industry itelligence AG introduces it.engine for engineering at KHD Humboldt Wedag AG

Frankfurt, March, 12, 2003 - itelligence AG, a full-service provider for SAP, will introduce it.engine for engineering, an itelligence solution based on the mySAP Business Suite, at KHD Humboldt Wedag AG, Cologne. KHD is an international manufacturer of industrial plants and equipment employing 650 people worldwide which generated sales of approx. EUR 122 million in 2001. KHD Humboldt Wedag AG manufactures cement plants, coal processing plants as well as mineral crushers and mills for customers around the world. KHD is a global technology leader in the plant engineering industry.

In the first project phase scheduled for February to November 2003, KHD will migrate the controlling, project management, finance, materials management as well as quality management units to it.engine for engineering with itelligence's support. Additional project steps such as the introduction of further it.engine modules based on the mySAP Business Suite in the sales and logistics units are planned for 2004. Ultimately, some 310 "named users" will work with it.engine. The contract also includes remote servicing of the it.engine for engineering applications by itelligence at the company's own computer centre in Bautzen.

At the moment, KHD is still using SAP R/2. The migration to the mySAP Business Suite and it.engine for engineering will enable KHD to evolve its existing systems and benefit from an enhanced user interface and new functionality. it.engine for engineering gives the company the possibility to map all business processes of the group in a single system in the medium term.

The contract announced today confirms itelligence's industry expertise and sound understanding of the business processes in the plant and mechanical engineering industry. KHD awarded this contract to itelligence AG because of its international presence, the proximity of itelligence's Cologne branch to the company's headquarters as well as its wide range of services which in addition to the sale of SAP licences and IT consulting services covers the entire service chain from the implementation to the servicing of IT solutions including hotline support, training and outsourcing.
