

itelligence announces another successful deployment of SAP Business ByDesign

heat 11 GmbH & Co. KG and heat 11 solar GmbH & Co. KG taking off with SAP Business ByDesign

Bielefeld, January 27, 2011 – [heat 11](#) and [heat 11 solar GmbH & Co. KG](#), both of which are located in Bielefeld, Germany, have decided in favor of SAP Business ByDesign and the expert consultancy of itelligence AG. The heat 11 companies, which were founded in October 2010, are focused on the development, design and production of systems and plants for industrial process heat. heat 11 solar is focused, in particular, on thermal solar power plants and ORC systems. High-quality consultancy, engineering, sales and service for the sustainable operation of thermal oil systems for national and international customers are the focus of the company. The full scope of the SAP Business ByDesign solution has been available to their roughly 20 employees since January, 2011.

Stephan Kraus, Managing Director of heat 11 solar GmbH & Co. KG: "We were looking for a flexible ERP solution for our rapidly growing business, which would allow us, even in the future, to quickly map new processes in the company software. SAP Business ByDesign offers us precisely what we are looking for. In addition, we also benefit from the solutions and standards, which are provided to us right from the start by this SAP-based ERP system. itelligence provided us with exemplary advice for this. I am looking forward to the further development of this cooperation with itelligence as well as the international perspectives, which have been opened up to us thanks to this software and our system partner."

Wolfgang Kröner, Manager of the Midmarket Compact business area of itelligence AG: "The use of SAP Business ByDesign for up-and-coming startup companies highlights how this on-demand solution can be successfully deployed in the area of logistics, service and accounting. An important criterion in this connection is the rental model of SAP Business ByDesign, which contains the operational and logistical standards of the industry and can be directly used."

itelligence press release

itelligence announces another successful deployment of SAP Business ByDesign - heat 11 GmbH & Co. KG and heat 11 solar GmbH & Co. KG taking off with SAP Business ByDesign

SAP Business ByDesign

SAP Business ByDesign is a fully integrated business solution that is deployed in an on-demand operating model and offers all the benefits of SAP software. It is geared towards companies wishing to benefit from a comprehensive business application without investing in the requisite IT infrastructure. Thanks to its service-oriented architecture the software is made available via the Internet and only its usage is registered.
